Priyanka Sanjay Mankar

Data Analyst | Machine Learning | Python | SQL

priyankags2012@gmail.com +91 72182 93229 Pune , India linkedin.com/in/priyanka-mankar

github.com/priyags212 priyags212.github.io

PROFESSIONAL SUMMARY

Data Analyst with expertise in Python, SQL, and machine learning, experienced in analyzing large datasets and building predictive models. Skilled in exploratory data analysis, hypothesis testing, and model evaluation, with hands-on experience in classification and sentiment analysis projects. Proven ability to derive actionable insights and improve model performance through data-driven techniques.

TECHNICAL SKILLS

Programming & Analysis:
Python (NumPy, Pandas, Scikit-learn), SQL (Joins, Window Functions, Aggregations)

Statistics:
Hypothesis Testing, A/B Testing, Data Distribution Analysis

Visualization & Tools:
Power BI, Tableau, Matplotlib, Jupyter Notebook

Big Data & Cloud:
Hadoop, Hive, AWS (EC2, S3 – Basics)

Machine Learning:
Regression, Classification, Model Evaluation (Accuracy, Precision, Recall, F1-score), Feature Engineering

Data Processing:
Data Cleaning, ETL, Data Validation, Large Dataset Handling

PROJECTS

Power BI Sales Dashboard — Feb 2026 – Feb 2026

- Designed interactive dashboard tracking revenue & regional trends
- Cleaned and transformed raw data for accurate reporting
- Enabled data-driven decision-making through visual insights
- Identified top-performing products and sales patterns
- Github : PowerBI-Sales-Analytics-Dashboard

MarketPulse AI (Sentiment Analysis System) — Dec 2025 – Jan 2026

Tech: Python, FastAPI, FinBERT, Llama 3, Web Scraping

- Achieved ~85–90% sentiment classification accuracy using FinBERT on financial news
- Processed 1,000+ news articles for real-time sentiment insights
- Built automated pipeline for data ingestion and analysis
- Identified misclassification cases and improved model performance
- Github : Market_Pulse_AI

Credit Risk Analysis (Banking Case Study) — Nov 2025 – Dec 2025

Tech: Python, SQL, Scikit-learn

- Built Logistic Regression model achieving ~80%+ F1-score
- Analyzed 5,000+ records to identify key loan default factors
- Applied hypothesis testing to validate risk indicators
- Improved data quality through cleaning and validation
- Github : CreditCard_Case_study

EDUCATION DETAILS

PG Diploma in Big Data Analytics (PG-DBDA) — Aug 2025 – Feb 2026
CDAC- Mumbai | 70.63%

B.E. Mechanical Engineering — Jun 2016 – Jun 2020
Shivaji University, Kolhapur | 71.5%

Diploma in Mechanical Engineering — Jun 2013 – Jun 2016
Shivaji University, Kolhapur | 67.88%

CERTIFICATES

AWS Academy Graduate – Cloud Foundations

AWS Academy Graduate -Data Engineering
